

Guide on how to use your movement archive

It is now a legal requirement that all pig movements be recorded electronically.

To do electronic pig movement licences you will first need to log onto www.eaml2.org.uk

You will then need to enter your user name & password on the registered user section and click login.

The screenshot shows the eAML2 website interface. At the top, there is a navigation bar with the AHDB PORK logo and tabs for 'About eAML2', 'Help', 'Contact Us', 'Pig Health', and 'ZNPC'. Below the navigation bar is a banner that says 'Sign up to the NEW AHDB Pork Significant Diseases Charter for early warning of disease outbreaks in your region.' The main heading is 'eAML2 Electronic Movement Licensing' with icons for a truck, a pig, a mobile phone, and a computer mouse. There are three main action buttons: 'Registered Users' (with a login form), 'Register with eAML2' (with a truck icon), and 'Not registered and received a movement?' (with a document icon). At the bottom, there are sections for 'eAML2 Contact Details' and 'Bureau Service & Helpline Opening Times'.

The system will automatically set itself (**by default**) to look at the most popular type of movement people will generally search for

The 1st tab is to define whether it's a "sent" movement **off** your holding OR "received" movement **onto** your holding,

By tapping the arrow to the right of that tab you can change your selection to look at sent **OR** received movements

Markets: Please note, there is only one option for markets on TYPE of movement, from the drop down, select "Farm to Market", you will then need to "toggle" between "sent" tab & "received" tab to find pigs you have either "sent" to market" or "received" from a market.

The 2nd tab is to define the "type" of movement you are looking for

By clicking on the arrow to the right of the tab you open the drop down menu to change the "type" of movement and also the date if required
