

Notification of eAML2 Licensing Process Amendment

Please note, that after careful consideration and discussions with DEFRA and other industry bodies we will be amending the wording of one question in the eAML2 licencing process. This amendment will come into effect on the 1st of July 2026. The amendment will simplify answering this question, reducing confusion when creating licences.

Current question:

Is this move within a pyramid?

Revised question:

Are you making this move within 20 days of the pigs arriving on the holding?

As a vital disease control measure, no pigs may move off a holding within 20 days of the last pigs moving on unless both the departure and destination site are part of an APHA approved pyramid network. Find out more about pig pyramids here: [AHDB Standstill Guidance](#)

We will be adding a reminder to the help section next to the question on the online form so that this will be reminded of during licence creation.

If you have any questions, please reach out to the eAML2 Helpdesk via email: eaml2@ahdb.org.uk, or phone 0844 335 8400 (charges apply).

Many thanks,

The eAML2 Team
